

Acrylic Solid Surfaces

أسطح الأكريليك الصلبة

The Expert in This Field

INNOVATIVE
TECHNICAL
FOR WOOD INDUSTRIES

Acrylic solid surfaces are among the greatest material for furniture and counters. They give any area a clean, contemporary, and streamlined look. Acrylic is an excellent choice for both home and commercial areas since it is long-lasting, easy to maintain, and reasonably priced.

It can be readily cut, routed, and sanded like wood and formed into countertops, shower walls, external cladding for buildings, signage and furniture where non-porosity and infrequent maintenance are highly valued. These are just a few of the many applications.

Acrylic Solid Surface Characteristics

We rely on Hanex Solid Surfaces for Acrylic works because it's an ideal material for residential and commercial applications, and it's beauty, durability, aesthetics, design flexibility, and color choices. Acrylic Solid Surfaces from Hanex are manufactured in USA.

-  Design Flexibility
