FOR WOOD INDUSTRIES

Innovative Technical Toilet Partition Systems are adaptable, long-lasting, space-saving, and economical. Being an excellent alternative to building cubicle dividers for usage in public restrooms, locker rooms, and showers.

Toilet Partitions is built of heavy-duty solid compact laminate panels with high corrosion resistance stainless steel fittings and screws.

Compact Laminate Panel Properties

FINSA
soluciones en madera

Made in Spain

 Impact Resistance

 Stain and Odor Repellent

 Hygienic & Antibacterial

 Environmentally Friendly

 Scratch Resistance

 Ease of Cleaning

 Water & Moisture Resistance

 Heat & Cigarette Burn Resistant

Hardware

Hardware & fittings are made of high corrosion resistant **stainless steel grade 304**.

Top quality hardware specially made for 13mm panels. Pipe stainless steel 304 or aluminum head rail.

System Components

System Dimensions

Overall nominal system height (including headrail): 2000mm (± 30 mm).

Panel Height: 1820 mm.

Adjustable foot Height: 100mm (± 20 mm).

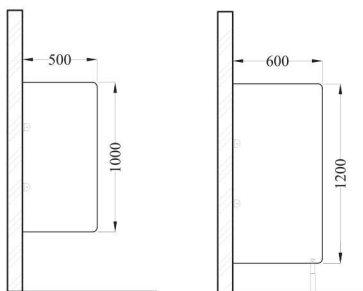

Recommended System Depth 1500mm.

* System dimensions are adjusted based on site requirements.

* Special design and dimension are considered for special users (i.e. wheelchair users, children).

Complementary Items:

Urinal Partitions

Type 1

Type 2

* Urinal top shelf can be added upon request.

System Advantages

- » Modular
- » Durable
- » Flexible
- » Design friendly
- » Decorative
- » Easy to install
- » Space Utilization
- » Cost Efficient
- » Maintenance free
