TOILET PARTITION & LOCKER SOLUTIONS

Compact HPL Toilet Partitions

Modern. Durable. Hygienic.

Designed. Manufactured. Supplied. Installed.

---

01 — TOILET PARTITION SYSTEMS

Built for High-Traffic Spaces

Innovative Technical Toilet Partition Systems provide a practical and modern solution for **public restrooms, commercial facilities, schools, healthcare facilities, gyms, hotels, and institutional buildings**.

Our systems combine **Compact HPL panels** with high-quality stainless-steel hardware to provide durability, moisture resistance, easy maintenance, and a clean contemporary appearance.

WHY COMPACT HPL?

Water & Moisture Resistant

Suitable for demanding wet-area environments.

Durable
Designed to withstand frequent daily use.

Hygienic
Smooth, non-porous surfaces are easy to clean and maintain.

Scratch Resistant

Designed for demanding commercial environments.

Design Flexibility

Available in a wide range of colors and finishes.

Low Maintenance

Easy to clean with standard mild detergents.

10-YEAR WARRANTY

Up to 10 years warranty on toilet partition panels and hardware, subject to the agreed warranty terms and normal use conditions.

---

02 — SYSTEM COMPONENTS

Complete Partition System

PANELS

Compact HPL / Phenolic

- Standard thickness: **13 mm**
- High moisture resistance
- Durable solid-core construction
- Easy to clean
- Available in multiple colors and finishes

HARDWARE

Stainless Steel AISI 304

- Hinges
- Locks
- Handles
- Brackets
- Adjustable feet
- Other accessories fixed

AISI 316 hardware is available as an optional specification where required.

HEADRAIL

Provides additional stability and alignment for the partition system.

ADJUSTABLE FEET

Designed to compensate for uneven floor levels and provide a clean finished appearance.

OPTIONAL ACCESSORIES

- Coat Hooks
- Urinal Partitions
- Baby Changing Stations
- Additional accessories according to project requirements

---

03 — PANEL SPECIFICATIONS

COMPACT HPL / PHENOLIC PANEL

Compact HPL is a high-pressure solid laminate manufactured from resin-impregnated decorative, and kraft paper layers pressed under high temperature and pressure.

Its solid-core construction provides excellent durability and makes it particularly suitable for wet and high-traffic environments.

KEY PROPERTIES

PROPERTY	SPECIFICATION
Material	Compact HPL / Phenolic
Standard Thickness	13 mm
Surface	Decorative / Easy Clean
Moisture Resistance	High
Scratch Resistance	High
Impact Resistance	High
Maintenance	Low
Colors & Finishes	Multiple Options
Application	Interior Wet Areas

Compact HPL systems are commonly specified for toilet and shower partitions where resistance to moisture, impact, and daily use is required.

DESIGN OPTIONS

Solid Colors | Wood Finishes | Contemporary Patterns | Custom Project Colors

---
