Company Profile

The Expert in This Field

INNOVATIVE
TECHNICAL
FOR WOOD INDUSTRIES

About Us

Founded in 2019 and based in Amman, Jordan, **Innovative Technical for Wood Industries** is a specialized manufacturing and solutions company providing high-quality products for modern commercial, institutional, healthcare, educational, industrial, and laboratory environments.

Our expertise combines **design, manufacturing, supply, and installation**, enabling us to deliver tailored solutions that meet the functional, aesthetic, and technical requirements of each project.

Our product portfolio includes **Acrylic Solid Surface solutions, HPL Toilet Partition Systems, Lockers, and Laboratory Furniture & Fittings**, supported by carefully selected raw materials and specialized components.

From individual products to complete project solutions, we work closely with clients, contractors, consultants, and project teams to transform requirements into practical, durable, and visually refined solutions.

OUR APPROACH

From Concept to Completion

We believe that successful projects require more than quality products. They require a clear understanding of the client's needs, attention to detail, reliable execution, and professional installation.

Our approach covers the complete project cycle:

Consultation → Design → Manufacturing → Supply → Installation

Whether working from an existing design or developing a solution from the beginning, our team works to deliver products that combine functionality, durability, aesthetics, and ease of maintenance.

INNOVATIVE TECHNICAL
FOR WOOD INDUSTRIES

OUR SOLUTIONS

01

ACRYLIC SOLID SURFACE

Premium Surface Solutions for Modern Spaces

Acrylic Solid Surface is a versatile, non-porous material that combines contemporary aesthetics with practical performance. Its seamless appearance, design flexibility, and ease of maintenance make it suitable for a wide range of residential, commercial, healthcare, hospitality, educational, and institutional applications.

At Innovative Technical, we work with **Corian® Solid Surface** to create customized surfaces and solutions according to project requirements.

Key Features

- Non-porous surface
- Hygienic and easy to maintain
- Seamless appearance
- Wide range of design possibilities
- Excellent fabrication flexibility
- Resistant to stains and moisture
- Suitable for customized shapes and details
- Repairable and renewable surface
- Modern and elegant appearance
- Suitable for demanding commercial applications

Applications

Acrylic Solid Surface can be used in a wide range of applications, including:

- Reception Counters
- Service Counters
- Worktops

- Healthcare Counters
- Laboratory Applications
- Hospitality Areas
- Commercial Interiors
- Educational Facilities
- Wall Applications
- Custom Furniture
- Specialized Architectural Applications

Custom Fabrication

Our fabrication capabilities allow us to produce customized solutions according to the dimensions, design, and functional requirements of each project.

From simple countertops to complex customized forms, we focus on precision, clean finishing, and a consistent final appearance.

02

HPL TOILET PARTITION SYSTEMS

Durable. Hygienic. Space-Efficient.

Innovative Technical Toilet Partition Systems provide a practical and modern solution for public and commercial washrooms, changing rooms, and shower areas.

Our systems are manufactured using **13 mm Compact HPL panels** combined with high-quality hardware and fittings designed to provide durability, stability, and long-term performance.

The systems can be customized according to the available space, layout, color selection, and project requirements.

Key Features

- 13 mm Compact HPL panels

- High impact resistance
- Scratch resistance
- Water and moisture resistance
- Hygienic and easy to clean
- Stain and odor resistant
- Durable construction
- Modern appearance
- Space-efficient design
- Suitable for high-traffic environments

Hardware & Fittings

Our partition systems are complemented by high-quality hardware designed for Compact HPL applications.

Available components may include:

- Stainless Steel 304 Hardware
- Stainless Steel or Aluminum Head Rails
- Hinges
- Locks
- Door Handles
- Supporting Legs
- Brackets and Accessories

Applications

Our HPL Toilet Partition Systems are suitable for:

- Commercial Buildings
- Shopping Centers
- Schools
- Universities

- Hospitals
- Healthcare Facilities
- Hotels
- Restaurants
- Factories
- Gyms and Sports Facilities
- Public Facilities
- Offices
- Transportation Facilities

Warranty

10-Year Warranty

Our HPL toilet doors and partition systems are covered by a **10-year warranty**, subject to the applicable terms and conditions.

03

LOCKERS

Smart Storage Solutions for Modern Facilities

Innovative Technical designs and manufactures customized locker systems to provide secure, organized, and efficient storage solutions for different environments.

Our lockers can be configured according to the client's requirements, including dimensions, number of compartments, layout, colors, locking systems, and accessories.

Customized Solutions

Locker systems can be designed to meet the specific requirements of each facility.

Options include:

- Different locker configurations

- Customized dimensions
- Multiple compartment layouts
- Different door arrangements
- Various locking systems
- Key locks
- Padlock-compatible locks
- Customized colors and finishes
- Specialized storage compartments

Applications

Our locker solutions are suitable for:

- Schools
- Universities
- Hospitals
- Factories
- Offices
- Gyms
- Sports Facilities
- Staff Changing Rooms
- Commercial Facilities
- Institutional Buildings

Design & Manufacturing

We provide customized locker solutions based on the available space, number of users, storage requirements, and overall interior design of the facility.

Our objective is to combine **efficient space utilization, durability, functionality, and modern appearance** in every locker system.

04

LABORATORY FURNITURE & FITTINGS

Complete Solutions for Modern Laboratories

Laboratory environments require furniture and fittings that are designed around the specific requirements of laboratory personnel, equipment, workflow, safety, and maintenance.

At Innovative Technical, we provide laboratory furniture and specialized fittings for a variety of applications, including **medical, educational, research, pharmaceutical, and industrial laboratories**.

Our solutions can be developed from an existing laboratory plan or designed from the ground up according to the client's requirements.

LABORATORY FURNITURE

Designed Around Your Workflow

Our laboratory furniture solutions can include:

- Laboratory Benches
- Wall Cabinets
- Base Cabinets
- Storage Cabinets
- Shelving Systems
- Work Benches
- Custom Laboratory Furniture
- Specialized Storage Solutions

Furniture can be customized according to laboratory layout, equipment dimensions, workflow, storage requirements, and available space.

LABORATORY WORKTOPS

Surfaces Designed for Laboratory Applications

We provide laboratory worktop solutions selected according to the intended application and project requirements.

Our worktops can be customized in terms of:

- Dimensions
- Configuration
- Cut-outs
- Edge details
- Service openings
- Sink integration
- Equipment integration

The appropriate worktop material is selected based on the laboratory environment, intended use, and required performance characteristics.

LABORATORY SINKS

Practical & Durable Laboratory Washing Solutions

Our laboratory solutions include specialized **Polypropylene (PP) sinks** designed for laboratory environments.

Available solutions include:

- PP Laboratory Sinks
- Medium-Size PP Sinks
- PP Cup Sinks
- Customized Sink Configurations

Sink selection and configuration can be adapted to the laboratory bench and project requirements.

WATER & GAS FITTINGS

Integrated Laboratory Services

We provide a range of specialized water and gas fittings used in laboratory installations.

Our available fittings include:

- Bench-Mount One-Way Gas Tap
- Bench-Mount Two-Way Gas Tap
- One-Way Mixer Water Tap
- Single Water Tap
- Goose Neck Water Tap
- Water Flow Control Valve
- 45° Water/Gas Cock
- Gas Flow Control Valve

These components can be incorporated into laboratory furniture according to the required services and laboratory layout.

ELECTRICAL & LABORATORY ACCESSORIES

Laboratory workspaces often require integrated electrical and organizational solutions.

Our available accessories include:

- Single Socket Holders
- Peg Boards
- Electrical Service Accessories
- Laboratory Service Components

These solutions can be integrated into laboratory furniture according to project requirements.

COMPLETE LABORATORY SOLUTIONS

From Laboratory Planning to Installation

Our laboratory service is not limited to supplying individual products.

We can support projects from the initial planning stage through manufacturing and installation.

Our Laboratory Process

01 — Consultation

Understanding the laboratory's purpose, workflow, equipment, storage needs, and project requirements.

02 — Laboratory Planning

Developing the laboratory layout from the beginning or working according to an existing architectural or engineering plan.

03 — Design

Planning benches, cabinets, worktops, sinks, services, storage, and accessories according to the required workflow.

04 — Manufacturing

Producing customized laboratory furniture and related solutions according to the approved design.

05 — Supply

Providing the required furniture, fittings, and selected laboratory components.

06 — Installation

Professional installation and project completion according to the agreed scope of work.

LABORATORY SECTORS

Our laboratory solutions are suitable for a wide range of environments, including:

Medical Laboratories

Designed to support organized workflows, efficient storage, hygiene, and practical daily operations.

Educational Laboratories

Solutions for schools, colleges, and universities designed around teaching activities, student use, equipment, and safety requirements.

Research Laboratories

Flexible workspaces designed to accommodate specialized equipment, storage, and changing research requirements.

Pharmaceutical Laboratories

Furniture and workspace solutions suitable for pharmaceutical and quality-control environments according to project requirements.

Industrial Laboratories

Solutions for industrial testing, quality control, production support, and technical applications.

INDUSTRIES WE SERVE

Our products and solutions serve a diverse range of sectors, including:

- Healthcare
- Medical Laboratories
- Education
- Universities & Colleges
- Schools
- Research & Development
- Pharmaceutical

- Manufacturing
- Industrial Facilities
- Commercial Buildings
- Banking & Financial Institutions
- Hospitality
- Sports & Fitness Facilities
- Public & Institutional Facilities

PROJECT EXPERIENCE

Since our establishment in 2019, we have successfully contributed to projects across multiple sectors in Jordan.

Our project experience includes solutions for:

- Medical Laboratories
- Hospitals
- Healthcare Centers
- Educational Facilities
- Industrial Facilities
- Manufacturing Facilities
- Banks
- Commercial Projects
- Institutional Facilities

QUALITY

Quality Built Into Every Stage

Quality is an integral part of our approach, from material selection and design through manufacturing, finishing, delivery, and installation.

We focus on:

- Carefully selected materials
- Consistent manufacturing quality
- Precision in fabrication
- Attention to finishing details
- Functional design
- Reliable installation
- Continuous improvement
- Customer satisfaction

Our goal is to deliver solutions that provide lasting value while meeting the functional and aesthetic expectations of our clients.

WHY INNOVATIVE TECHNICAL?

Integrated Expertise

We combine design, manufacturing, supply, and installation under one company.

Customized Solutions

We adapt our products and designs to the specific requirements of each project.

Diverse Product Portfolio

Our solutions cover specialized surfaces, toilet partitions, lockers, laboratory furniture, and laboratory fittings.

Project-Based Approach

We work with clients, contractors, consultants, and project teams to deliver solutions according to project requirements.

Manufacturing Capability

Our local manufacturing capabilities allow us to provide customized dimensions, designs, and configurations.

Professional Installation

Our services extend beyond manufacturing and supply to professional installation for the products within our installation scope.

Long-Term Commitment

We aim to build lasting relationships through reliable products, responsive service, and continuous development.

OUR MISSION

To design, manufacture, supply, and install specialized solutions that meet the unique functional and aesthetic requirements of our clients, while maintaining a strong commitment to quality, reliability, innovation, and customer satisfaction.

OUR VISION

To become a leading provider of specialized furniture, surface solutions, partition systems, storage solutions, and laboratory solutions in Jordan and the region.

OUR VALUES

QUALITY

We are committed to delivering products that meet high standards of performance, functionality, and finish.

INNOVATION

We continuously seek better materials, designs, technologies, and solutions.

RELIABILITY

We value consistency, responsibility, and long-term relationships with our clients and partners.

COLLABORATION

We work closely with clients, consultants, contractors, and project teams to achieve successful results.

CUSTOMER FOCUS

We listen to our clients and develop solutions around their actual requirements.

INTEGRITY

We believe in transparent communication, responsible practices, and professional commitment.

SAFETY

Safety is an essential consideration in our products, designs, manufacturing processes, and project execution.

CONTINUOUS DEVELOPMENT

We believe that successful companies continuously improve their products, processes, and services.

OUR COMMITMENT

At Innovative Technical, we understand that every project has its own requirements.

Our commitment is to provide solutions that combine:
